About Us:

- Supplier of control room furniture, security console furniture, industrial computer furniture, medical imaging workstations, laboratory and technical furniture to fit virtually any industrial or commercial application
- By utilizing state-of-the-art communication tools we supply operator console projects around the world
- Complementary partner products include 24-hour rated chairs, flat screen monitor mounts, monitor arms, LCD display desk stands, x-ray film viewers, and high-resolution medical displays and more
- Our consoles are manufactured in fabrication facilities in Houston (ISO 9001:2008) and Magnolia, TX using ImageVision trademarks, product designs, fabrication drawings and specifications

Primary industries, markets and applications served:

- Petroleum and chemicals production, refineries, pipelines, offshore platforms, pulp and paper, lumber, mining, metals, cement, glass, food & beverage, brewing, shipboard/marine workstations, electric power generation, satellite tracking stations and water-wastewater treatment
- Security console furniture for hospitals, airports, baggage handling, ports, railroads, dams, bridges, tunnels, military bases, command centers and commercial buildings
- New markets include: medical imaging workstations, adjustable height consoles and accessory products

Our primary strengths:

- Heavy-duty all-steel console construction with innovative modular and highly flexible product design
- We ship fully assembled to reduce your console move in and set up costs
- Integral cable management for neat control console appearance; divided wire ways for power and control
- Personalized customer support; reliable and fast response; with flexibility to meet special needs
- Total quality management system with continuous process improvement in place
- 100% follow up on all orders to seek customer feedback and ensure satisfaction and continuous product improvement; learn more…

Monitor Tier Privacy Panels

OPTIONS

Our all black command center furniture provides backgrounds for the LCD monitors that make the screens "pop out" from the support structure of the monitor tiers

Operator consoles with privacy panels provide an optimum environment for reducing operator distraction and increasing their productivity

Notice in the 2nd photo on the right that we can provide 45 degree wedge turrets to mount controls

Field retrofit kits are available to install tier privacy panels as well as 45 degree wedge turrets when needed

Easy To Retrofit: Wedge Turrets and Monitor Tier Shelves

3-Tier 45 Degree Wedge Turret, Shallow Depth

Tier Spanner Shelf

3-Tier Turret Privacy Panels

Binder and Supply Storage Shelves

OPTIONS

Command center furniture with additional storage options added

Monitor tier spanner shelves were used above many of the 1st. and 2nd. tier monitor screens to provide storage for binders, supplies and radios

This option is easy to add to your existing command center furniture whether they have privacy panels installed on the monitor tiers or not

The computer console shown on left were supplied with 3 in. cabinet extensions on the front of the cabinets

Rear doors and rear pull out trays allow for easy maintenance access with little operator disturbance

Built In Cable Management

KEY FEATURES

Customers frequently tell us they love our built in cable trays that run throughout the console line up

All horizontal and vertical screen support frames have internal divided wire ways included

This provides additional electrical isolation between power and control wiring when needed

Horizontal and vertical screen support frames have removable wire way covers for easy access

Divided wire ways are included across all turn angles, wedges and corner tables

Vertical end frames have divided power and control wire ways from top to bottom

Cable Grommets on back of all desk tops

Divided power and control wire ways from end to end across all work surfaces

Divided Vertical Wire Ways

Horiz. Wire Ways

Rear Console Access

KEY FEATURES

Locking hinged doors can be placed on rear of the console units

Front, rear or both front and rear doors with louvers are available

Louvered panels were relocated to front of security furniture on left

CPU or equipment trays can be arranged to slide out to rear of the console

Note: rear doors are not available on back of cabinet extensions

Security console on left below feature two 48in. wide 1-tier LoPro units with a small 90 degree corner table and a matching file credenza

Accessory garages with EIA rack front panels and custom cutouts provided below large screen displays

Modular Consoles®

Seated or Standing Operators

OPTIONS

Our basic control room console design allows for either seated or standing operators

Existing operator console units can be modified in the field to convert from seated to standing work station configurations

Two base riser heights available:
6 inch and 12 inch

For 6 inch base riser, typical desk tops heights are:
seated; 29.3 in. high
standing; 35.3 in.

For 12 inch base riser, heights are:, standing: 41.3 in. high (depending on final adjustment of the leveling feet)

Casters are available

Riser Base, 12"
Standing Desks

26 in. Desk with File & Supply Drawer and Qty (2) 48 in. Desks, Black on 12 in. high riser bases

26 in. LoPro
Seated Workstation

48 in. Desk on 6 in. Riser
Standing Workstation
with Rear Doors

Stubby Depth Work Surfaces

KEY FEATURES

Stubby depth work surfaces are design for use in narrow spaces

Stubby work surfaces are 34.5 in. deep; 40.2 inch deep is standard

Stubby desk tops also allow for easier visibility and access to cabinet mounted equipment such as DVR's on left

Stubby work surfaces are recommended for file and supply drawer modules

Drawers are available on either table console units or desk consoles

Where knee room is needed in your line up of computer lab desks, insert a table unit in the middle o arrangement as shown in upper left

Monitor supports are available on stubby tables and desks

48in. Stubby Table with 26in. Stubby Desks

26in. Cabinets Have Louvered Rear Panels for Ventilation
